First Semester Exam of

English Legal Terminology of (administrative law )

Model Answer

Question n° I

Read the following paragraph carefully and under-line Ten (10) legal terms Related to administrative law . (10pts)

Text :

Administrative law is branch of Public law that regulates the structures, functions, and actions of Public administration. It ensures that administrative authorities operate within legal boundaries while safeguarding citizens' rights and freedoms. The emergence of administrative law can be traced back to post-revolution of France,

Where the need to separate judicial and administrative powers gave rise to a specialized legal system to control state actions.

As Administrative law developed, it laid the foundation for Organizing public service and defining the legal status of those working within it. This gave rise to the concept of public employment, which refers to the legal and professional framework governing civil servants.

These individuals are entrusted with permanent function serving the General interest.

Question n° II
